March 17, 2020

## Circular

In view of the recent Novel Corona Virus outbreak, we in Marwari Hospitals have to take strict and stringent measures to prevent disease spread in the hospital among patients and staff.

As of today i.e. 17/03/2020, 125 cases have been detected in India, out of which 103 are Indian Nationals and 22 are foreign nationals. 2 deaths have been confirmed till now.

Thus we, in Marwari Hospitals, are going to formulate policies for disease control and prevention.

It is instructed to follow these policies strictly and under no circumstances should they be breached.

- The first of these policies is that visitors are to be restricted.
- Only one attendant per patient is to be allowed in the Hospital.
- A second attendant will be allowed only when the first attendant leaves the hospital. This should be made clear at the reception level itself.
- No attendants are to be allowed in the ICU.
- Gathering of attendants is to be discouraged.
- Visitors are not to be allowed till the Corona Virus epidemic subsides.
- Other than for medical purposes like visiting a doctor or for investigations, children strictly are not to be allowed in the hospital.
- Gatherings of any sort are not to be allowed.
- All patient attendants should first be instructed to first hand wash and then only should he/she be allowed near the patient. The same is to be followed before leaving the hospital.
- All Sister-in-charges and coordinators should ensure strict hand hygiene/ hand washing among attendants.
- Strict use of PPE and hand hygiene is to be followed.
- Any case of illness among staff is to be reported to the In Charges.
- Further new policies will be made as and when required.

**All are requested to co-operate and oblige.**
